API 5L Electric Resistance Weld Steel Pipe Line From  
<http://www.spiralsteelpipe.com/>

## **API 5L Best Electric Resistance Weld (ERW)Steel Pipe Line**

### **Manufacturing technique**

The raw materials of the same width of the [API 5L black](#) steel pipe can be processed in different molding angles to manufacture steel pipe in various diameters which are in accordance with the standards.

The [API 5L black](#) steel pipe is extensively used in transferring corrosive matter such as petroleum and natural gas.

### **Technical specifications**

The rating standards for the [API 5L black](#) steel pipe include [PSL 1 type](#) and [PSL 2 type](#). We produce the [straight seam welded](#) steel pipe in outer diameters ranging from 114.3mm to

323.9mm and in wall thickness from 1.8mm to 22.2mm.

### **Materials**

We use A25-X100 steel type to manufacture the API 5L black steel pipe.

Zhongshun is an [API 5L black](#) steel pipe manufacturer and supplier. We also offer [ERW](#) steel pipe and coating steel pipe,etc. Our high quality products are offered at competitive prices.

Zhongshun is located in China, where the full chain of manufacturing pilings and galvanized

---

steel pipes can be completed, even in one city, which helps save our production cost. Our lower manufacturing cost saves your purchasing cost. More details of each product are shown on the page with description.
